BELLY DANCING CLASS on Fridays from 10:00 AM – 11:00 AM

If you've ever walked past the studio doors and heard the hypnotic beat of Middle Eastern drums accompanied by a chorus of laughter, you've caught a glimpse of our weekly belly dance class.
The moment the coin hip scarves start jingling, the energy in the room completely transforms. Belly dancing is a great low-impact cardio workout that builds core strength, improves posture, and is gentle on the joints. Beyond the physical benefits, it's a wonderful way to shake off stress and boost body confidence.
All you need to join are comfortable gym clothes—no prior experience is necessary!
The Benefits:
1. Sneaky Core Strength: Isolate muscles you didn't know you had. It is a fantastic workout for your core, back, and posture, all without doing a single crunch.
2. Stress-Buster: It is impossible to worry about your to-do list when you are focusing on a hip drop or a shoulder shimmy. It's an hour of pure, joyful escapism.
3. Instant Confidence Boost: There is an undeniable magic that happens when a room full of women start moving together. You will leave the class walking taller and feeling more connected to your body.
Your instructor is Adele Croce, with over 25 years of dancing and teaching experience.

News from the MahJong Group

To start our MahJong games we need to decide which player is East Wind for the first hand. We each roll two dice, and the highest roller becomes East Wind.
When we did this on October 19th, with Vicki Sands, Lucille Mancer, Sarina and myself rolling, all four of us rolled a Seven! We all said "Wow!", but continued, and started again. On the second round, three of us again rolled a Seven! The last roll was an 11 and so became East Wind.
Vicki Sands used Google to figure out the odds of this happening, and found out "The odds of rolling a sum of 7 with two standard six-sided dice seven times in a row are 1 in 279,936, or approximately 0.000357%". I don't understand the math, but I know it's very very rare!!
If any member would like to learn to play MahJong, please contact me at 905-999-0340, or just show up at 1:30 on a Monday afternoon at the Club.
Carolyn Cassells

THE KEEP FIT KORNER

"Exercise in the morning before your brain figures out what you're doing." (Anonymous)

Some keep fitters attend classes more for the social aspect (all the chitty chatty stuff before, during, and after class), others priortize self-improvement and physical fitness, and some make it a "date" as they need an accountability partner. Whatever your reason for setting the alarm and showing up, both your body and mind reap tremendous benefit from our 60 minutes together. Here's why.

Five Benefits of Keep Fit Classes

#1 Exercise helps us strengthen muscles and bones, and live a longer life with relative ease and minimal pain.

#2 A few minutes of mobility exercises help offset poor hip mobility which can result in back and/or knees issues and pose a greater risk of falls and fractures.

#3 Regular exercise can help lower the risk of chronic conditions such as diabetes, heart disease, and cancer, and plays a key role in maintaining a healthy weight.

#4 Movement in general has a positive impact on cognitive health, quality of life, sleep, and mood, and may lessen anxiety and depression.

#5 Socialization has a similar positive impact on cognitive health, mood, anxiety, and depression.

So whether you come to fitness class for the workout, the socialization, the laughs, or the post-class treat, you're doing your current and future self a favour by improving your body, mind, and spirit.

Cheers in good health! *Your fitness buddies,* Helen, Pat, and Brenda

GONE BUT NOT FORGOTTEN

1. One of our members, **Gerry Pickett** passed on September 30, 2026. He played Cribbage on Tuesdays. Gerry was 83 and passed away after a brief battle with Multiple Myeloma (bone and blood cancer). Our sincere sympathy to his wife Mary and family.
